 4 E27 5W LED

Q.P. nasce come elemento funzionale che può fungere da applique o da lampada da terra. L'applique si fissa a parete con due sole viti a scomparsa e prende corrente o da una presa o da un punto luce esistente. Accanto ai due fori per il fissaggio a parete vi si trova un ulteriore foro dove poter far passare il cavo d'acciaio di sospensione, si avrà così la possibilità di farla diventare una lampada da terra appendendola al soffitto.

Q.P.? is a functional element which can be used as an applique or as floor-lamp. The applique is fixed to the wall with two invisible screws and it takes energy from an outlet or from an existent light-point. When you're tired to see it attached to the wall, you can transform it into a lamp hanging it to the roof. Next to the two holes for the attachment, there is indeed another one hole from which you can pass the still cable of suspension.
